

Interview study for patients with stroke and/or their caregivers

We are looking for individuals in the **United States** or **United Kingdom** to take part in a **separate, one-on-one, paid 75-minute online interview**.

Individual with ischemic stroke (18+ years old) must:

Have experienced an ischemic stroke in the past 2 years*

Understand the English language

**You will be asked to share evidence of your clinical diagnosis (such as a screenshot of medical records)*

Caregiver of person with stroke (18+ years old) must:

Currently provide, or has previously provided, regular support/care (a minimum of 3 hours at least 4 days a week) to an individual with stroke

Be caring for, or has cared for, an individual who has experienced an ischemic stroke in the past 2 years

Speak English and able to fully understand the English language

During the interview, we will ask you about:

- Your experience of stroke (or that of the person you care for), including symptoms and impact on daily life.
- We will also ask for your feedback on questionnaires about stroke symptoms and their impacts.
